DETAILED ACTION

1. It would be of great assistance to the Office if all incoming papers pertaining to a filed application carried the following items:

1. Application number (checked for accuracy, including series code and serial no.).
2. Group art unit number (copied from most recent Office communication).
3. Filing date.
4. Name of the examiner who prepared the most recent Office action.
5. Title of invention.
6. Confirmation number (See MPEP § 503).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1,4,8,19,20,21 are rejected under 35 U.S.C. 102(e) as being anticipated by Brown et al (6,650,694).

Brown discloses a CDMA demodulator comprising means for generating signal indicating cycle boundaries (150,165) co-processor (100,102) for receiving and storing I and Q samples and processing symbols from the stored samples for the plurality of fingers, the processing of symbols initiated in response to the cycle boundary signals. Brown also discloses generating interrupts (170). (See figs.1 and 4, col. 6, lines, 16-23, col.11, line 63, to col. 12, line 59)

Response to Arguments

4. Applicant's arguments with respect to claims 1,4,8,19-21 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

5. Claims 6 and 22-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 2-3,5,7,9-18, allowed.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Temesghen Ghebretinsae whose telephone number is 571-272-3017. The examiner can normally be reached on Monday-Friday from 8 to 6. The examiner can also be reached on alternate.
